Executive Director

## IT ALL STARTED AT A DINNER PARTY . . .

The guests, John and Carolyn Lutembeka, were a mission couple from Tanzania. After a great meal and a deeply moving time of prayer, they were asked, "How can our church help your ministry in Tanzania?"

After only a moment's hesitation the husband replied, "If every family in the church gave, each \$100 gift would purchase a new bike. A bicycle would allow a traveling evangelist to reach five villages."

Today in many countries of the world a bicycle is the principal mode of personal transportation. Even as a cycling enthusiast I was unaware of how significant bikes have become in proclaiming the good news of Jesus Christ until I met the Lutembekas.

But that was only the beginning of His Wheels International (HWI). "Today in Tanzania pastors and evangelists praise the Lord for hearing their prayers for the bicycles. We are reaching more people than ever before," reports John Lutembeka.
